Veterans from all wars

"Hence the almost desperation to acquire as many books, hard copy, etc., of "real ministries that tell it like it is (you), and present accurate and PRACTICAL TOOLS that will be usable during that time". (Funny that you named your ministry "Lamplight": coincidence??!!)

P.S. We have Vets from all wars and conflicts...all ages and disabilities...I am one of the " old men"!! (A Hospital Corpsman from the Vietnam War)...

Thanks and Bless you guys so much!!!

These "young bloods" crave the books and cards: the printed page...a lot of them are very intelligent boys with very high security clearances along with being very well trained in computers and electronics...they feel that an "End Times move" will be the destruction of our Power Grid...and all our little computer toys will be useless...
