

"I have read 12 or 14 of your books. I reread them again and again. They are so encouraging. I first found you many years ago. I was a corrections officer. I was starting my own business. That book., *Trust God for Your Finances*, which I have in front of me now, was put in my cubby hole of the officers' section. It was *Trust God for Your Finances* .by Jack Hartman. I started looking around and asking the trustee if he put this in my mailbox. I asked the other officers. Nobody knew who put the book in y cubby hole.

I couldn't believe what I was reading. It was hard at first to put God first. I met up with another gentleman in Indiana and started a business and we were publicly traded. All of this came out of the book Jack wrote. We merged with a company from Chicago. They were doing business money first and bills next.

I was training a class of prison guards in Nashville. I was told, "This part about being a family and taking officers as family members this has to stop. We are here to make money." He said you have to do that. You have so much to lose. I said no. Consequently, I was booted out of the company. I was a major shareholder in the company.

Six months later one of the salesmen sent me an email and asked me to call him. He said, "I have been ordered by the CEO to never talk to you or I would be fired. My credit card just bounced. I am selling huge expensive body cameras. I don't know what to do." I said I would do all I could. I called a board member. He said, "I protested. I got out of it." I called one of the other investors in Alabama, a major shareholder, a Southern Baptist. I told him what was going on. He said, "We couldn't understand why they got rid of you." They had an emergency phone conference and fired everyone and asked for me to come back. Now I am the Vice President. All of the investors lost all of their money. They will get their money back. All of my old customers were treated so brutally. They all came back. I have the privilege of talking to them.

I was on the phone with Costa Rica. They are placing an order for electronic shields, a psychological deterrent, 75,000 volts. We are going to Ukraine to train their military in our products. I owe all of this to you and Jack and all that is in your books."

Lamplight family, I am so very blessed to meet someone whose name I have known for so many years through his donating to our ministry and ordering books? Jim's

company provides protective equipment for law enforcement, including prison guards. Jim will be working to place our books into prisons on a large scale. He will also be working to place our books with American Indians. Please be praying for Jim, his company that saves lives every day, and for God to open doors that no man can close and for our books to reach multitudes of hearts so that they can be set free by Jesus Christ. Thank you!

I will do somersaults if you will contact me and tell me how God has used our books to make a difference in your life. You may have an outreach for our books that will place them right where God wants them to be. I'll be looking to hear from you
