## **From Pastor Tonny and Carolyn Ssekyanzi, Kampala, Uganda:**

Dear lamplight family,

I greet you in the name of our almighty God and Jesus Christ. We thank God that we have been together in marriage for the past 17 years. Allow me, dear friends, to inform you, once again, that we are leading LAMPLIGHT CHURCH, Uganda, which was established into our hearts and then became to be. We were mentored by Judy and Jack Hartman. You are so dear to us. Our church has 100 members.

At this time, we celebrating Mr. & Mrs. Jan and Judy Vail for their decision to remodel our church building . As I write now, construction work is going on here at Lamplight, Uganda. In addition to that, Judy and Jan are fulfilling our Lamplight High School dream , for that case, construction work is going on seriously.

### **Lamplight High School: Construction Has Begun!**

Thank you, dear friends, thank you, family. Keep praying and supporting this school development. We hope and believe the school to open early next year.

God bless you.

## **From Dr. Gideon and Claire Tandirerung, Makassar, Indonesia:**

Professor of Islamic Law, Faculty of Sharia and Law, UIN Jakarta, Prof. Dr. M. Atho Mudzhar, said that the concept of Khilafah was promoted by radical Islamic groups such as the Islamic State of Iraq and Syria (ISIS) and Hizb ut-Tahrir (HT). Now it's developed by Muslims in Indonesia. They already have 31 schools established, scattered in this country. Muslims have made their agenda that the Indonesian state will become an Islamic state. It is a solid agenda though general elections. The presidential election is still two years away, but the campaign is already very hot. Either by force or election, they would like to take over the power. Pray against this plan.

## Today in Indonesia:

The economic situation makes the situation tense. Many find it difficult because there are no jobs and it is difficult to get their daily supplies. Prices are skyrocketing and it is difficult for people with low incomes to be able to afford them at all.

The pandemic is still a major threat and we are trying not to go out of the house, except when we are looking for food. Service is only by telephone or internet. "Schools have declined drastically," said the head of Manpower in Makassar in my today's meeting.

## Lamplight books will be sold in bookstores in Indonesia!

We just received news that the publisher will publish Lamplight books! We are still editing the books, because of the needs of the culture we serve, by adding illustrations. When they are finished, of course, we are happy to use them, also, for Lamplight Global University. We are also planning to cooperate with other institutions, both overseas and domestically. Pray about all of this.

Difficulties do exist, but the gospel continues to be preached. Many new converts keep their change or move a secret, so that's why we keep trying to coordinate them to get them into the local church to be very guided and organized. We will expand our service to East Kalimantan or the new national capital and will soon be moving there. We should also have funds to buy land which is still very cheap. One hectare of land can still be at a price of \$53,000.

We have also moved places because the rent has run out. We created a new contract with a monthly fee of \$107/month. Pray that God can open a way to pay for the next 6 months as the rent for the house where we live.

Poor Indonesians struggle for queue numbers to take cash from the government at a Post Office in Makassar, South Sulawesi.

## Challenge: Have a day or a meal like they do once a week!

The basic foods consumed in the villages in Kampala, Uganda are beans, maize (corn), and sweet potatoes. Once a week, let's have a day or a meal of these basic foods, to identify with those who subsist on bare minimums, while we have so much, and give what we would have spent on food for the spread of the gospel. Let's do it!

**We are here for you. Please let us know how we can pray for you and just love you 😊**

*Judy*
